SUMMARY

I'm Aaron Lim, a Computer Science student specializing in AI & Machine Learning at james cook University, Singapore.
My journey in programming began with an interest in solving complex problems. This led me to explore various programming languages and technologies, with a focus on web development and artificial intelligence.
I'm passionate about building web applications and software that is not only functional but also intuitive and user-friendly. I believe in continuous learning and staying updated with the latest technologies.
When I'm not coding, I enjoy exploring new technologies, solving algorithmic problems, contributing to open-source projects and playing video games.
